Standard Goldmann White-on-White perimeter

Full compliance with the Goldmann standards, White stimulus on white background light test

LED Light Source

As Goldmann standard perimeter's trend in market, adopt LED light source for perimeter configuration which is life time long, light declination is very low. During the usage, no need to calibrate the LED bulbs periodically or replace it.

Auto eye recognition and pupil diameter measurement

System recognize OD/OS automatically and alarm to indicate operator, which is helpful to avoid mistake during test. Auto pupil diameter measured during test for correcting visual error.

Humanized design of mechanical and structure

Neat wiring and exquisite inside. Each modules can be replaced easily.

Voice prompts and instruction

Instruct examinee how to cooperate and indicate examinee during whole test by voice guidance.

* Dicom

Data operation for patient information uploading and downloading.

*Blind Zone Test

Uniquely developed Blind Zone Test program, which have significant meaning for judgement of optic disk inflammation and edema.

*Driver test of Horizontal 150°

Besides of Esterman Test program, another special Horizontal 150° program is for testing driver who have visual impairment of single eye.

*Test programs application for Neurological eye disease

Software Representation

*** Efficient Test strategies = Reduce Test time + Accuracy**

The test strategies fully consider different age groups, responsiveness, visual field defects regularity, and the distribution of the field island, provides faster solution for perimetry testing which is Smart, Intelligent and interactive.

Software Representation

*** Multiple Fixation Monitoring system**

Trace the reliability of test result

Software Representation

* Classic Test report

Test report in Classic format, can be easily read and understand by doctors world widely.
